LSC Member Participation. Participacion del los Miembros del Comite.

Laura Perez - still asking for someone like Mr. Zavala who worked with the kids. He was able to get to base of the problem, and he formed a "group" in which students would gather and talk about what they were feeling and how to work through their problems. She doesn't want to call anything out about the school - yesterday there was a fight in the courtyard and instead of breaking up the fight, the other students were cheering them on to fight - if they had someone to talk to, they would be able to work out difficulties and be brave enough to stop fights instead of encouraging them. Emotional well-being affect academics as well. It would also be nice to have that person be bilingual - so the students can relate to an Hispanic role model. **Todavia quiere pedir por alguien como el Sr. Zavala quien trabajo con los ninos. Podia llegar a la base del problema y formo un grupo en cual los alumnos se juntaron y hablaron**

sobre sus sentimientos y como trabajar a resolver sus problemas. No quiere decir nada malo sobre la escuela, pero ayer fue un pleito en el playground y en vez de separar el pleito, los otros alumnos estaban aplaudiendo y animandolos a pelear. Si tenian alguien con quien hablar podrian resolver sus dificultades y tener el valor a parar los pleitos en vez de animarlos. Salud emocional tambien afecta las academicas de los ninos. Tambien sera beneficioso si sera un hombre bilingue para que los alumnos pueden relacionar con un modelo Hispano.

Green: It was a volunteer program that he started - we do have a deficit in that area - she realizes that. Maybe we can seek help from outside the school. Does anyone have a resource or recommendation for the school? We did implement a school-wide SEL curriculum. We hope to see some fruits from it soon. Fue una programa que establecio voluntariamente. Si tenemos un deficit en esa area - lo sabe. Tal vez podemos buscar apoyo de afuera de la escuela. Alguien sabe de un recurso o tiene una recomendacion para la escuela? Si implementamos un nuevo curiculo de SEL (aprendizaje social-emocional). Hojala que vemos sus frutos muy pronto.

Public Participation. Participacion del Publico.

Question: During recess - who is supervising during the recess time?? Quien esta supervisando durante recreo?

There are 5 recess supervisors on duty outside. Students need to inform an adult when something happens. They cannot see everything. Hay 5 supervisores durante recreo. Alumnos tienen que informar uno de ellos cuando algo pasa. No pueden ver todo.

Hernandez suggested that maybe we can get parent volunteers to help during that time. Another parent replied that the kids don't listen to the adults that work here, they're sure not going to listen to a parent. Hernandez sugerio que tal vez pueden volutar unos de los padres para ayudar durante esta hora del dia. Otro padre contesto que los alumnos no hacen caso a los adultos que trabajan aqui, menos a un padre.

Mr. James: When students leave the school, they're very hyper. He was waiting where the 1st and 2nd grade students get picked up. An 8th grader went to pick up a younger sibling - he was rowdy - cursing, running. Running them over. Mr. James talked to the student, told him to calm down, and then went to the office to report him. Mr. Green and security had a talk with him. And now he doesn't do it. Say something, and bring it to someone's attention. Cuando salen los alumnos as fin del dia, salen hiperactivos. El estaba esperando en el area de 1 y 2o grado, y habia un alumno de 8o grado quien fue a recoger su hermano chiquito. Esta gritando, usando profanidad, corriendo. El Sr. James hablo con el nino, le dijo que se calmara, y luego fue a la oficina a reportarlo. Sr. Green y seguridad hablo con el nino, y ya no lo hace. Si vez halgo, traelo a la atencion de alguien.

Mom stated that her son is being bullied. She's talked to the teachers and nothing is being done about it.

Adjournment. Clausura.
Meeting adjourned at 9:38 am.
